Founded in 1966, *Đa Engliscan Gesiðas* (The English Companions) aims to bring together all those with an interest in the history, language and culture of Early England AD 450-1100. All aspects of the foundations and growth of English culture are covered, including language and literature, archaeology, anthropology, architecture, art, religion, mythology, folklore and material culture. Though we try to stimulate interest and debate on relevant subjects through the pages of *Wipowinde* and our website, The English Companions does not follow any particular interpretation of history, and maintains a strictly neutral line on modern political and religious matters.
